Connah's Quay Town Council website: Basic accessibility check

Basic accessibility check overview

To meet WCAG 2.1 level AA, the answer to the questions in each section should be 'Yes' or 'Not applicable'.

Answering 'No' means that you are not meeting WCAG and your content will have barriers that will prevent some users, especially disabled users and older people from accessing it.

Which pages were tested?

We reviewed the following webpages from [Connah's Quay Town Council's website](#) for this accessibility check:

- Home page
- Contact Connah's Quay Town Council
- Councillors

Connah's Quay Town Council website: Basic accessibility check

Perceivable overview

Information and user interface components must be presentable to users in ways they can perceive.

Check details

Check carried out by: Alec Sumner of Original Sumner Online Content (OSOC)

Date: 6/3/2021

Contact details: [Visit the Original Sumner Online Content website for contact details](#)

What was used to perform the check?

This check was carried out using:

- Manual checks with the assistance of NonVisual Desktop Access (NVDA)
- Automated checking tools such as:
 - Web AIM's WAVE
 - ARC toolkit
 - Siteimprove
 - Google web developer (Chrome extension)
 - Line Height Adjuster (Chrome extension)
 - EasyRead (Chrome extension)
 - HTML Validator (Chrome developer tools)

Summary

A good website that displays well on all devices.

Content to improve:

- Making sure the user can see where they are when navigating using a keyboard, this is not always clear, mostly on the homepage
- The navigation menu does not display properly at 90% and 67% zoom levels
- Although there were no other serious errors during the check, there were some warnings about the HTML
